Tuesday, November 13, 1849.

☞ *For Nominations see Supplement.*

THE POLLS

Will be opened this morning at 7 o'clock in the new building on the S. W. corner of Clay and Dupont streets, (in front of the Post Office,) and will continue open without intermission till sunset.

The Election of To-day.

Let no man undervalue its importance or permit any pressure of private business to keep him away from the polls. To-day's work will designate the men who are to put the wheels of our State Government in motion, and the men who are to look after the much neglected and urgent interests of California at Washington. It is of the highest moment to all of us that our new *Ship of State*—gold freighted as she is, and soon to be crowded both with crew and passengers—should be fairly *launched* and faithfully and skillfully *piloted*.

It is upon this principle and no other that the "People's Ticket" has been formed. It is the object of that ticket, as its name imports, to send men to both houses of Congress and to both branches of the State Legislature, who will guard and serve most effectually the interests not of any party, as a party, but of *the whole people*. In the utter absence of all the means of regular political organization among us, and in view of the utter impossibility of making or uniting upon any regular and valid party nominations in time for this election, the only safe and proper course to pursue was in our judgment the course pursued in forming the people's ticket. It is a ticket which stands upon the sole basis of *personal qualification*. Send the *best men* to legislate for us at Washington. Send the *best men* to legislate for us at San Jose. These are its mottos. This is its principle. It is the good fortune of this ticket, that, in so far at least as relates to the distinguished gentleman whose name appears on its device as given at the head of our columns, no man can deny that it fairly and fully embodies its principle of *personal qualification*. We have not yet seen the first man who would stand up and deny that Thomas Butler King is *eminently qualified* to represent us in part at Washington as one of our Senators. It can as little be doubted, we think, that General Morse is a good man—one of the very best men—to send to the House of Representatives. The same remark may be applied to Mr. Price, whose name we observe has also been placed by many voters on the People's Ticket, side by side with that of Gen. Morse. The names of the gentlemen on the State Legislative ticket, will all of them, we are persuaded, come out triumphantly from the same test. They are men worthy the support and confidence of any community.

To the polls, then citizens of San Francisco, and give them your votes!

The Vote of the Towns

From all that we can learn of the condition of things in the interior of the State, and especially in the mining districts, we infer that the whole weight of the popular vote at this election is to be cast in the towns and cities. We hear that the greatest apathy in regard to politics prevails in the mines. A very intelligent gentleman who has just come down from there, tells us that it will be impossible to rally the miners to the polls. The great mass of them, he says, cannot be persuaded to walk or ride a mile or half a mile; much less the distance usually required, to cast their votes. As to any party feeling he says they laugh at the very idea of the thing. In this respect, they act just as we always supposed sensible men in their situation would act. They know that there is and there can be no regular and authoritative party organization in California. They know at least for themselves that there is no party organization, and no party nominations, in the forming or directing of which *they* have had directly or indirectly *any voice or vote whatever*. In these circumstances they very justly, and properly and *democratically* refused to respond to any self-styled party call. They deny and rightly deny, that *there is* any legitimate party call whatever. We trust that the same feeling will prevail, as it ought to prevail, when the Legislature shall assemble at San Jose.

In this state of things we protest against the vote for any man being regarded as any test of the strength of the democratic party in California. The democracy is split up in its preference for various candidates; and if there be any such thing as an organized Whig party in this State we have yet to see the first hour of its existence. Certainly if the unanimous feeling in regard to the Constitution be any criterion by which to judge, then the whig party of California (if there be one) is the most radically democratic whig Party we ever heard of.

In such a community so situated, the choice of Legislatures, if not left absolutely *to chance* must turn upon *personal qualifications*.

If what we hear of the political apathy in all the mining districts be true, we regret it. It is not a sound nor salutary state of the public feeling, however natural it may be. The present crisis of the State demands another spirit—a spirit of vigilance, of impartiality and judicious selection. If this cannot be had in the present state of the gold excitement in the mines and throughout the State, let it at least appear to-day in the more favorably situated communities of our towns, and above all, here in San Francisco.

Gold Dust.—We are requested to mention for the information of our readers that parties shipping treasure by the steamer, are obliged to clear the same at the custom house. It seems to us that this is an excellent plan. If it serves no other purpose, it will at least put within the reach of our community very valuable and interesting statistical information in a reliable form. But we are not informed and we should be glad to learn, what *legal authority* there is to require a clearance of gold dust or money from our port.

The Mail by the Steamer.—We are glad to learn that Col. Allen has directed the Mail of the 15th inst. to be carried *directly through to New York as freight* in Howard's line of Steamers, in case, when the Panama arrives at Panama, one of the regular Mail Steamers on the other side should not be waiting at Chagres. Col. Allen in assuming this responsibility at his own risk, has shown in his official capacity as mail agent, a most laudable determination to serve the interests of our whole community. The mail is now making up at the Post Office with a view to this arrangement.

CITY ITEMS.

[REPORTED FOR THE NEWS.]

JUDGE ALMOND'S COURT.—The case of Leonard vs. Pacific Steam Ship Co. for breach of contract excited no small interest. The case came up on Saturday and was ably handled on both sides. The complaint was, that the plaintiff purchased and paid for a state-room ticket from New York to San Francisco, which was not furnished; in consequence of which the said plaintiff was forced to sleep upon the table, to his great inconvenience and bodily suffering, and that the food was of bad quality and small quantity,—that the boat was filthy in the extreme and not furnished with proper attendants, &c. &c. But the chief cause of complaint seemed to be that the vessel did not leave Panama at the specified time, in consequence of which detention plaintiff fell sick of fever, thereby subjecting him to much expense and great suffering both in body and mind,—and he now appears in court for redress, laying the damages at ten thousand dollars.

We were not in court when the evidence was given on either side, but we heard the arguments of counsel.

After considerable sparring between the parties—in which we regretted to hear such words as "liar" and "slanderer," the case was submitted to the jury at about 9 o'clock P. M. A verdict had not been rendered when we left.

MASONIC.—We learn that the members of the masonic fraternity are about to organize a Lodge in this city, under a charter granted to Mr. Stowell, and associates, by the Grand Lodge of the District of Columbia. Their first meeting will be held on Thursday evening, in the new Masonic Hall, two doors below Burgoyne & Co's banking house, on Montgomery street.

FLIGHTS OF FANCY.—The tight rope dancing of Senor and Senora Leorero, at Rowe's circus. Go and see them.

P. S. We regret to learn that owing to some misunderstanding between the managers and the *accomplished* clown, Mr. Foley, his connection with the circus is about to cease. Successful pedestrians "*look before they leap*"—Messrs. Managers, would you not do well to reconsider the matter?

SLIP OF THE PEN—GAMBLING CASE.—J. J. Bryant vs. Robert Wilbum, was before Judge Almond's court, and *not* before the Alcalde, as stated in our last; and the judgment was for *twenty* two hundred dollars, instead of two hundred.

TUMBLING DOWN—the adobe house on Pacific street. This sort of houses, of which there are quite a number going up in town, will not, we think, stand this climate. "Bricks without straw," will not do.

FUN FOR THE MILLION at the concerts of the New York and Philadelphia Minstrels.

SUICIDE.—Ferdinando Flint, a German, aged 36 years, committed suicide in a house on Pacific street, at about ten o'clock on Sunday morning, by blowing out his brains with a pistol. Temporary insanity is said to be the cause.

The coroner's jury returned a verdict in substance as above.

A MEETING of the journeymen house carpenters took place on Saturday evening, in Portsmouth Square. We will try and find room for their proceedings in our next paper.

ANOTHER SUICIDE.—A rumor has just reached us (Sunday, 8 o'clock P. M.) through Mr. J. H. Kent, from "Happy Valley," that a man was found dead in his tent, this afternoon, with a sword run through his body. The tent was fastened upon the inside. We have no further particulars.

CHARTS OF OUR WATERS.—We have had the pleasure of seeing portions of the re-surveys of the waters of the Sacramento river, which are now in progress and nearly completed under the direction of Capt. Ringgold, U. S. N. The charts which we have seen are beautifully executed and give evidence that the work has been done with accuracy and fidelity. We understand that these charts are soon to be published here and we commend them to the attention of those interested in the navigation of the waters which they describe.

STATE OF FEELING IN THE CANADAS.—The latest newspaper accounts we have from the Canadas, says a New York journal, indicate much excitement yet existing in the public mind there. The British and French party presses teem with caustic and abusive articles. Lord Elgin is unsparingly denounced by the Tories, or English party, not only for his public acts, but for his private deportment—being accused of pecuniary meanness, and of freezing formality in his intercourse with society. The French party, on the other hand, denounce the tories without stint; taunt them with their profession of loyalty and attachment to peace and order, and call on every man who loves his country to stand ready to obey her call, and on the "Constitutional Press" to persevere in exposing and denouncing the nefarious designs of the Tory faction.

NEW HOTEL.—The "Graham House" now erecting at the corner of Kearny and Pacific streets, (near this office) will be, when completed, a noble structure. The building is of wood, with a brick basement. It fronts 100 feet on Kearny street and 62 feet on Pacific. It is four and a half stories high and contains 96 rooms. The bar-room is 70 by 45 feet. Balconies upon each of the first three stories, extend around both fronts, affording a promenade of 507 feet. There are three ten-pin alleys in the basement. The frame of the entire building was sent out we learn from Baltimore.

In the hands of its enterprising and gentlemanly proprietor, Col. Graham, we do not doubt that this new establishment will deserve and command a large share of public favor. It will be opened we hear about the first of next month.

From the Mines.

The following *growl*, set to metre, speaks for itself. It gives *one side* of the picture of a miner's life with a good deal of spirit. The *other side* of the same picture may be looked for on the manifest of the steamers and in the private boxes of their passengers.

NOTES ON THE MINES.

BY J. H. COLLIER.

Oh, the beauties of the "diggins,"
Neither few, nor rare, nor small;
In the world are many "riggins,"
But gold humbug 's worst of all.
From the time of your departure
Constant toils and troubles rant,
Till you find you've caught a Tartar,
And return home—if you can.

Speak not now of small boats cramm'd with
Men and fleas too thick to move,
Nor of sluggish rivers d——d with
Fierce mosquitoes in a drove.
Set aside the mules, and jaunting
Weary days through sand and sun;
Water, food, and shelter wanting—
Then, the trouble's just begun.

Reached at last the golden mine is—
Pitched the tent upon the sticks,
And such things as are not "finis,"
'Ranged in something like a fix.
Over now all care and sorrow,
Miners dream of yellow beds,
Finding "pockets" on the morrow—
Lumps as big as barrel heads.

Early up the steep "gulch," travel—
Choose a spot, and make the start—
First come beds of sand and gravel,
Hard as frog-rid Pharaoh's heart.
Then big stones quite rough and weighty,
Needing lifting very strong;
Or a rock so tough and slaty,
Just right where it don't belong.

Crowbar going like a knocker—
Pick and spade in hurry wild—
Shaking "fits" out of the rocker—
Sleepy pa with crying child.
Standing in the mud and water,
Thinking, if the hole do'nt pay,
"Tai'nt because it had'nt oughter,"
Till 'tis near the close of day.

Then, when tired to death the branch is,
Scraping up the sand that's loose,
Squatting down upon's one's haunches
O'er the puddle like a goose;
In this way, you roll and "splosh" it—
Tedious, as it is uncouth—
And all carefully you wash it,
Till your back aches like a tooth.

Tentward, discontented, plodding
With five dollars or a dime,
Eat your pork and biscuit nodding
Like a tree-top all the time;
Getting sticks and stones to lay right,
Sleep in dirty blankets rolled,
And two hours before 'tis daylight,
Wake up shivering with the cold.

In the morn something has happened—
Never sure to find all right;
Hatchet's missing, or your japanned
Teapot stept-out over night—
Or a grisly bear has walked off
With the meat hung near your tent;
In the hole that you have chalked off
Water springs have found a vent.

Let them tell their golden stories,
And believe them—I don't care.
None can know just where the ore is
Save they chance to find it there.
Fortunes have been made, I know it,
By some lucky ones before,
And let him who wishes "go it"—
I don't want to any more.

San Francisco, Nov. 1847.

☞ Hon. R. H. Dimmick of Pueblo San Jose, recently appointed Judge of the Superior Court for this District, arrived in town some ten days since, but unfortunately has been confined to his room during that time by a severe illness. We are happy to hear of the Judge's convalescence and hope that he will soon be able to resume his professional duties.

THE TEHUANTEPEC ROUTE.—A survey of the Tehuantepec route for a railroad to the Pacific has been completed by Ernaldo Obousier, a Belgian engineer, employed by Senior Don Jose, who possessed the sole right from the government of Mexico to construct a road across the Isthmus of Tehuantepec. The report made is very favorable. The natural difficulties are supposed to be less than in any other part of the country. At the present time, it is stated, a mail could be easily carried by the route, from New Orleans to the Pacific in eight days.

LOUNT & Co's. EXPRESS.—We invite the attention of business men and the public generally to the advertisement of Messrs. Lount & Co., in another column. Having agencies established throughout the Mines, and in the principal cities and towns of the United States, as well as a resident agent at Panama, we are confident their business will be conducted in such a manner as to merit the patronage of the public.

☞ THE LETTER SHEET PRICE CURRENT and Review of the Market will be ready on Tuesday, Nov. 13th; at 4 o'clock, p. m., at the office, corner of Washington and *Mo*ntgomery streets.

☞ We are requested to offer the name of *FRANCIS J. LIPPITT* as a candidate for the office of Lieut. Governor. c

MARRIED,

On Sunday, 11th November, 1849, at the house of Seth S. Lincoln, Esq., by the Rev. Mr. Mines, George M. Evans of this place to Miss Eliza Shanks, late of West Baltimore, U. S. A. Baltimore papers please copy.

DIED,

On Saturday, 10th inst. after a lingering illness of dysentary, Louis Tramble, printer, (formerly of st. Louis, mo.) one of the compositors employed on this paper from its commencement. From his mild and obliging disposition he became endeared to his employers and fellow workmen who mourn his loss as a brother's. Until Thursday last he remained in the office, full of hope of speedy recovery, but in order that nothing which might benefit him should be wanting, he was removed by the officers of the Lodge of Odd Fellows here, of which he was a member, to the hospital, but the hand of death was upon him. He died composed and serene. His effects were taken charge of by the officers of California Lodge No. 1. [St Louis papers please notice.]

On Sunday morning, Nov 11th, after a long and painful illness, Mr L D Ellis, of New York, in the 26th year of his age. [New York papers please copy.]

On the 2d inst, Patrick Healy, formerly of New Haven, aged about 23 years.

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to. On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,
Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1848; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general, against squatting upon his farms or ranchos, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Paso*.

Also, two ranchos on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltorno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltorene to Valentine Heguira, near the Pueblo pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,

ALVESO.—The town of Alveso, situate at the head of the bay of san Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of san Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the Santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and san Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in san Francisco. The town of Alveso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid,

FOR SALE. 50 bbls Monongahela whiskey, for sale by SALMON & ELLIS, Pacific street xxiv tf

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

THE HOSPITAL
OF SAN FRANCISCO.

W. H. STIVERS, M. D. Resident Physician.
Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.
2d class, two in a room, neatly furnished, each $10,00 per day.
3d class, in wards, neatly furnished, each $5,00 per day.

☞In all surgical cases, and cases of Insanity, there will be an extra charge.
